

The people of this country OWN THE AIRWAYS, and are becoming increasingly aware of this fact. What passes for news and information these days is becoming increasingly the opinion of the network. And THAT BEHAVIOR IS INTOLERABLE.

The online blogs are making millions of people aware of Sinclair's demand that their stations run the anti-Kerry documentary. And providing us with names of their advertisers so that we may pull our support from their products.

The U.S. is supposed to be a democracy, for God's sake!!!!!! What Sinclair is attempting to do is a clear example of the dangers of media consolidation, and the danger to our democracy. The public is insisting that the FCC take a stand on this, and stop Sinclair from using their media tool for political propoganda.
